

## "Not So Bad Being Laid Up"

Cheerful? Why not? Scheduled for a couple of weeks more, but I should worry!

Why, that little old wreck and my smashed leg have brought me a change from the "road"—all the comforts of home—and \$200 every four weeks from my AETNA ACCIDENT POLICY, together with payment of the surgeon's fee. Not to mention the \$25 I'll get every week while I'm lame-ducking in the open air.

Pretty soft, eh? Especially when a fellow works only on commission. Seriously, all of you boys ought to

## AETNA-IZE

You're not worrying the banks with deposits any more than I did. And when the accident breaks, your good old Aetna income keeps away the wolf and debts, and makes you independent. No sponging for me!

The cost? Honestly, too small to talk about. Before the jinx gets 'round to you, better phone, write or call today on my agent—

## WOMAN HAD NERVOUS TROUBLE

**Lydia E. Pinkham's Vegetable Compound Helped Her.**

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCERBAUGH, West Danby, N. Y.

Many are the washes in the public roads caused by people throwing brush, stumps, weeds and other waste into the side ditches which carry the water from the road beds. If land owners and citizens will help contractors by keeping such things out of the ditches many a wash will be prevented and the public and contractors both benefitted.

Probably a half hundred Fayette county farmers attended the meeting at the state farm in Jackson on last Friday and there should have been several times that number. The pickle worm is destroying the cantaloupe crop again this year. Reports from the Arkansas section which grows them for market say that the crop will be cut half at least by this worm which bores into the melon, causing it to rot before ripening. Locally the earliest cantaloupes were not troubled by the worms, but in the past week their attacks are ruining the main crop and there is no remedy that has ever been found effective in preventing them except spraying when the melon is small.
